

# Motorcycle

## *Bike Marque*

**Flexibility is the key to Chaucer Bike-Marque.  
At its heart it is a standardised product  
with national coverage.**

In turn, this is enhanced by the added benefit of a very wide range of acceptance criteria so that you can provide bespoke policies to meet the requirements of your clients.

Whilst cover is available for a broad spectrum of motorcycles and engine sizes the product specifically targets experienced riders and larger bikes. Bike-Marque provides high level cover that can be tailored to your specific marketing needs.

Equally we can provide multi-bike policies and offer cover for modified motorcycles. In effect, whatever the requirement, Chaucer Bike-Marque has a policy for virtually every opportunity within its target risk profile.
